No director had a beneficial interest in the shares of the company at any time during the period.

Directors' report (continued)

Directors' responsibilities

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of its profit or loss for that period. In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Year 2000

After an initial assessment of the potential impact of the Year 2000 on the company, a plan was developed to ensure that all significant risks were addressed well in advance of the critical dates and with minimum disruption to the business.

The board is confident that we achieved Year 2000 compliance in all areas which had a potential impact on the business and that the cost of doing so did not have a material impact on the company.

Auditors

A resolution will be submitted at the annual general meeting to reappoint Arthur Andersen, Chartered Accountants, as auditors for the ensuing year.

By order of the Board

M. P. Wale
Director

21 February 2000

To the Shareholders of SLC Turnberry Limited:

We have audited the financial statements on pages 4 to 15 which have been prepared under the historical cost convention and the accounting policies set out on pages 6 and 7.

Respective responsibilities of directors and auditors

As described on page 2, the company's directors are responsible for the preparation of the financial statements. It is our responsibility to form an independent opinion, based on our audit, on those statements and to report our opinion to you.

Basis of opinion

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements and of whether the accounting policies are appropriate to the circumstances of the company, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion the financial statements give a true and fair view of the state of affairs of the company at 31 December 1998 and of its profit for the period then ended and have been properly prepared in accordance with the Companies Act 1985.

Arthur Andersen.

Notes to financial statements (continued)

1 Statement of accounting policies

A summary of the principal accounting policies, all of which have been applied consistently throughout the period is set out below.

a) Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards.

The company has elected under Section 229 of the Companies Act 1985 not to consolidate Nitto World Co., Limited as its inclusion is not material for the purpose of giving a true and fair view.

b) Cash flow statement

The company has taken advantage of the exemption in FRS 1 to dispense with the requirement to include a cash flow statement in its financial statements as its results are incorporated into the financial statements of Starwood Hotels and Resorts Worldwide Inc., which are available to the public.

c) Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation as set out in note 9.

Depreciation on tangible fixed assets is provided at rates calculated to write off the cost less estimated residual value of each asset on a straight-line basis using the following annual rates which are based on the expected useful economic lives of the assets:

Buildings	2.5%
Plant and equipment	5% to 50%

Residual value is calculated on prices prevailing at the date of acquisition or revaluation.

d) Investments

Fixed asset investments are shown at cost less provision for impairment.

e) Stocks

Stocks are stated at the lower of cost and net realisable value.

f) Foreign currency

Transactions denominated in foreign currencies are recorded in sterling at exchange rates as at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the year end are reported at the rates of exchange prevailing at the year end. Any gain or loss arising from a change in exchange rates subsequent to the date of the transaction is reported as an exchange gain or loss in the profit and loss account.

Notes to financial statements (continued)

1 Statement of accounting policies (continued)

g) Turnover

Turnover is stated at the invoiced value of goods and services provided, exclusive of VAT and net of discounts granted.

h) Leases

Assets acquired under finance leases are initially reported at the fair value of the asset with an equivalent obligation categorised as appropriate under creditors due within or after one year. The asset is depreciated over the shorter of the lease term and its useful economic life. Obligations relating to finance leases represent the total of the minimum lease payments outstanding at the date of the balance sheet. Future finance charges are not included. Finance charges are allocated to accounting periods over the period of the lease to produce a constant rate of return on the outstanding balance.

Rentals under operating leases are charged on a straight-line basis over the lease term. Further information on charges in the year and future commitments is given in note 18.

i) Taxation

Corporation tax payable is provided on taxable profits at the current rate.

Deferred taxation (which arises from differences in the timing of the recognition of items, principally depreciation, in the financial statements and by the tax authorities) has been calculated on the liability method.

Deferred tax is provided on timing differences which, in the opinion of the directors, will probably reverse, at the rates of tax likely to be in force at the time of reversal. Deferred tax is not provided on timing differences which, in the opinion of the directors, will probably not reverse.

j) Pension contributions

The company operates a defined benefit pension scheme. Pension contributions are charged to the profit and loss account on the basis of spreading the cost of providing pensions over the period of employees' services to the company. Further information on this scheme is provided in note 18.

Notes to financial statements (continued)

2 Segment information

In the opinion of the directors the company has only one market segment and thus no segmental analysis is provided.

c) Pension arrangements

The company operates a pension scheme providing benefits based on final pensionable pay. The assets of the scheme are held separately from those of the company, being invested by independent fund managers.

Contributions to the scheme are charged to the profit and loss account so as to spread the cost of pensions over employees' working lives with the company. The contributions are determined by a qualified actuary on the basis of valuations using the attained age method.

The pension charge for the year was £111,012.

The most recent valuation was at 1 January 1997. The assumptions which have the most significant effect on the results of the valuation are those relating to the rate of return on investments and the rates of increase in salaries and pensions. It was assumed that the investment return would be 8% per annum, that salary increases would average 6% per annum and that present and future pensions would increase at the rate of 4% per annum.

The most recent actuarial valuation showed that the market value of the scheme's assets was £1,977,098 and that the actuarial value of those assets represented 111.5% of the benefits that had accrued to members, after allowing for expected future increases in earnings. The contributions of the company and employees were 17.4% and 9.3% respectively during the year.

19 Related party transactions

The company is exempt from the requirement of FRS 8 to include details of transactions with other group companies.
